In the heart of Ivry-sur-Seine (Val de Marne), the Agrocity Gagarine Truillot urban project is a paradigmatic example of urban regeneration in an *ANRU* sector (*an area identified as priority by the National Agency for Urban Renewal*).

This ZAC, carried out by GPA – EPA ORSA, develops the values of mixed uses, new uses, co-creation with inhabitants, pre-existing conditions, the circular and supportive economy, and the de-standardization of our lifestyles.
