Green New Deal Landscapes: session 3

<https://urbannext.net/green-new-deal-landscapes-session-3/>

Green New Deal Landscapes is a series hosted by Jose Alfredo Ramírez and Clara Olóriz Sanjuán, both co-directors of AA Groundlab. Each session discusses the relationship between policy making and our environment and explores how we can tackle climate change through landscape design.

Alfredo and Clara are joined by Elena Luciano, Yasmina Yehia and Daniel Kiss, graduates from Landscape Urbanism at the Architectural Association. The students researched on landscape management in Wales and Antarctica, and got involved with local communities and organizations, to understand the many layers operating in these territories.
