Mariano Boedo Square is located in between United States Street, Sanchez de Loria, Carlos Calvo and Virry Liniers streets. Its 1.08 ha. surface allocates 53% total to green spaces, filled with trees, bushes and climbing plants. The other 47% hosts a playground area, an amphitheater, a showroom area, a multipurpose hall, several resting and meeting points. The multipurpose hall is built from an existing structure in Carlos Calvo Street.

The main goal was developing recreational areas, not only involved in day-to-day life but in cultural activities. Due to this fact, the project is built in different height layers surrounded by green walls. A series of spaces whose characteristics and categories stimulate the development of neighborhood assemblies, parties, exhibitions and meetings.
