FARI AI TEST /
EXPERIENCE HUB

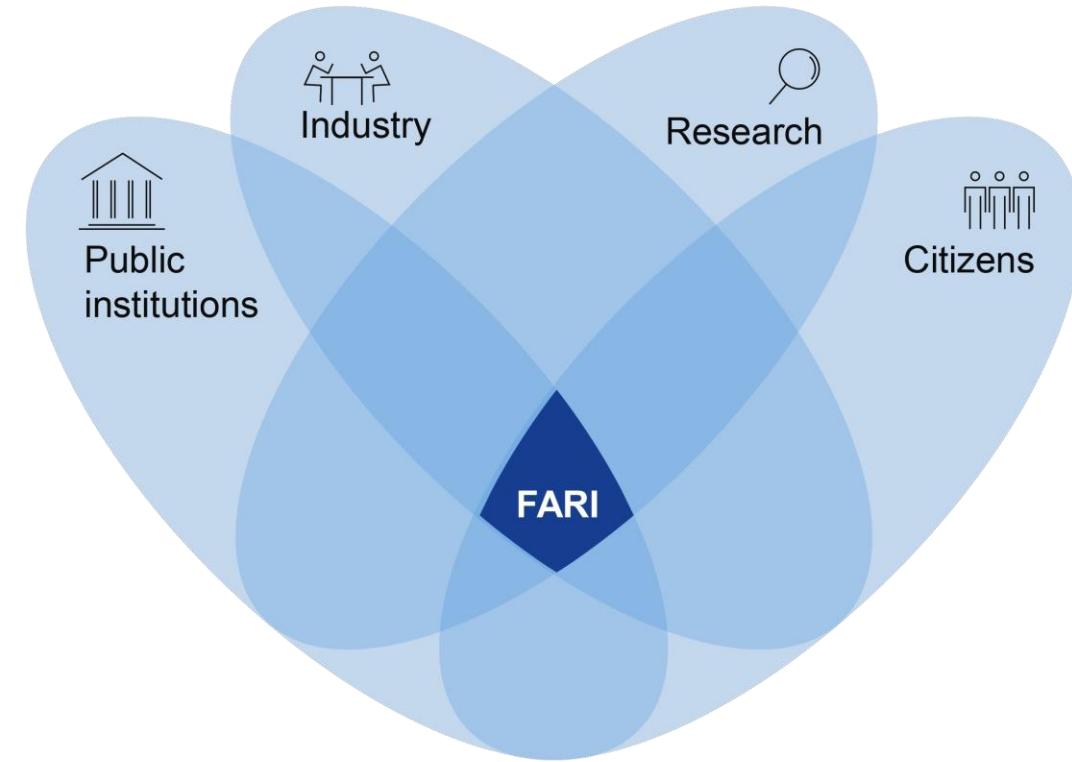

Putting the technology promise at the
service of society and its citizens.

Organized by:

FARI is a non-profit university institute on AI, data and robotics focused on the Common Good. We are jointly initiated by two Brussels universities (**VUB & ULB**) - uniting the interdisciplinary expertise across **10 research groups on AI, data, robotics, social sciences, ethics, and law**.

We do research and **build bridges with public administrations, industry, and citizens**, promoting sustainable AI, data & robotics with a focus on urban and public priority domains such as **health, mobility, sustainable robotics, climate and energy, participatory and inclusive society**.

The FARI Test and Experience Center (600m²)

A place where +15 demonstrations on AI, data, robotics and ethics showcase these technologies and their potential impact.

In this space, events are organized to meet private, public, civic and scientific actors.

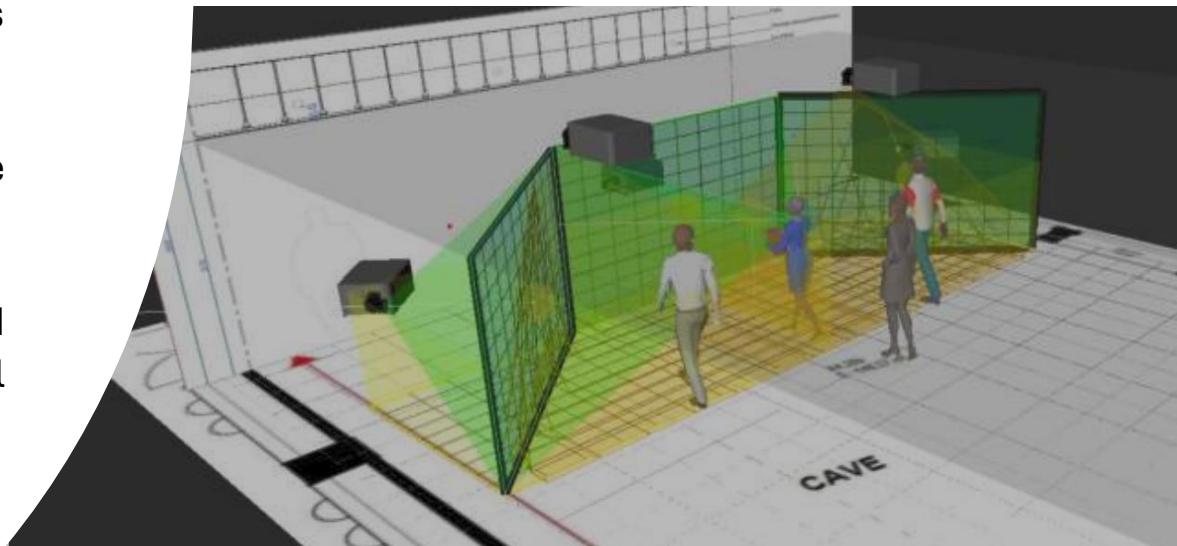

Our Computer Augmented Virtual Environment (CAVE)

Largest CAVE in Belgium: Our 147 sqm CAVE enables full-scale, immersive interactions that deliver insights beyond smaller setups.

4K BARCO Projectors: Three vertical and two floor screens let users walk through digital environments and engage from every angle.

Dual 4090 GPU Cluster: Equipped with two 4090 GPUs for real-time rendering of complex data and designs.

Real-Time Collaboration: Users can explore, manipulate, and interact with projects as if physically present in the virtual environment.

[Artificial Intelligence & Robotics]

CitCom.ai (Digital Europe Project)

- **Running from January 2023 to January 2028.**
- The **Digital Europe** initiative puts together 33 collaborators from 11 E.U. countries.
- **CitCom** is a **Test and Experimentation Facility (TEF)** that **tests and validates AI and robotics** for ensuring safety and compliance before deploying technologies to real-world areas.

How are we collaborating?

Leading **AI Regulatory sandboxes** to test compliance with regulatory standards.

Providing the **CAVE** as an **infrastructure** available for use within the Brussels TEF site.

Enhancing **testing and experimentation** capabilities to promote trustworthy AI solutions.

DIGISET (COSME Project)

- *Running from September 2024 to September 2026.*
- DIGISET is a collaborative project bringing together partners from Belgium, France, Austria, the Netherlands, Spain, and Romania to **support social economy SMEs in their AI & digital transformation.**

Digital Growth
Initiatives for
Social Economy
Transformation

How are we collaborating?

Leading **AI Regulatory sandboxes** to test compliance with regulatory standards.

Developing training materials and organizes **events to boost** SMEs' digital skills.

Providing access to **digital tools**, infrastructure, and resources.

Know more here: <https://www.linkedin.com/company/cosme-digiset/>

LIBRA.I. (Erasmus+ Project)

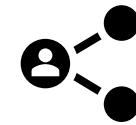

- *Running from November 2024 to October 2026.*
- LIBRA.I. Aims to upskill librarians with AI training to **help the public navigate digital media, combat disinformation, address AI ethics, and integrate AI into daily life.**

librA.I. libraries for
A.I. literacy

How are we collaborating?

Organizing monthly meetings, each focused on **a specific AI topic**.

Organizing three **practical bootcamps in Latvia, Belgium, and Poland.**

Ensuring that librarians are well prepared to integrate AI into **media literacy programs**.

MultiRoofs (Interreg Project)

- *Running from December 2024 to June 2029.*
- The **MultiRoofs** project aims to transform rooftops in Northwest Europe into multifunctional spaces for renewable energy, biodiversity, water absorption, recreation, and housing, enhancing urban efficiency, resilience, and sustainability.

How are we collaborating?

Leading communication efforts
for **disseminating knowledge** and
the project milestones.

Developing **digital twin tools** for
visualizing and managing urban
rooftop spaces (CAVE).

Offering **training sessions and
workshops** to public
authorities and stakeholders

Know more here: <https://www.fari.brussels/research-and-innovation/project/multiroofs>

ALGO-LIT (Erasmus+ Proj.)

- *Running from December 2024 to November 2027.*
- **The Algorithmic Literacy for Effective Transparency in the EU** aims at improving the algorithmic literacy of digital inclusion workers to better **support citizens' understanding of algorithms** as well as effectively exercise their right to transparency in France, the Netherlands, and Belgium

How are we collaborating?

Map the **needs** of digital inclusion workers to support mediation on algorithmic transparency.

Equip digital inclusion workers with **co-constructed** digital mediation resources.

Highlight, promote and institutionalise skills in **algorithmic mediation** in the EU.

Know more here: <https://algolit.eu/en>

AI4GOV-X (DIGITAL Project)

- *Running from February 2025 to January 2029.*
- The AI4GOV-X project brings together 38 beneficiaries and 4 partners from 21 European countries to develop and deliver an online master's program for the public sector, offering modular courses and hands-on activities in **AI, Data Spaces, and Digital Government Transformation**.

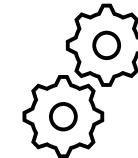

How are we collaborating?

Analyzing and designing the **AI4Engine framework** for the platform.

Leading the **development and beta testing** of the AI4Scale platform.

Optimizing the **AI4Scale platform** based on users' feedback and technical insights.

Know more here: <https://www.fari.brussels/research-and-innovation/project/ai4gov>

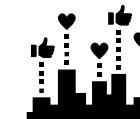

RADAR-AIM (Erasmus+ Project)

- *Running from June 2025 to May 2028.*
- The **RADAR-AIM** project is an international initiative that will explore the role of AI in sustainability through **education, collaboration, cross-border co-creation, and interdisciplinary dialogue** between **5 partners from Belgium, Portugal, Germany and Italy**.

How are we collaborating?

As the **coordinator of the project**, establishing communication, collaboration, and effective project management.

Co-leading communication and dissemination efforts alongside D-Teach, with a focus on **science communication**.

Reviewing and assessing the training program structure

*« Technological
progress not
accompanied by
wisdom is not real
progress »*
